

Aloha!

We are pleased to announce that [design guidelines for our seven Special Districts](#) are now available online for your convenience and use. All Special Districts were established to preserve and enhance characteristics unique to each district.

These guidelines supplement the standards in our zoning code and illustrate specific design considerations and criteria for each special district. We hope they will be helpful to assist owners, developers and design professionals to ensure that improvements and new projects preserve each district's unique qualities.

Printed copies of the guidebooks are available and may be purchased from our Urban Design Branch on the 7th floor of the City Municipal Building. The Waikiki Special District Guidebook costs \$3, all others cost \$1.
