## **Ko'olau Poko Sustainable Communities Plan Five-Year Review**

### **Community Vision for Ko'olau Poko**

The vision for the Ko'olau Poko Sustainable Communities Plan (2000) is shaped around two principal concepts. The first calls for protection of the various communities' natural, scenic, cultural, historic and agricultural resources. The second principal concept addresses the need to improve and replace, as necessary, the region's aging infrastructure systems. Key elements of the vision include:

- Adapt the concept of "ahupua'a" as a basis for land use and natural resources management.
- Preserve and promote open space throughout the region.
- Preserve and promote agricultural uses.
- Preserve and enhance scenic recreational and cultural features that define Ko'olau Poko's sense of place.
- Emphasize alternatives to the private passenger vehicle as modes for travel.
- Adapt housing and public works standards to community character and changing needs.
- Protect residential neighborhoods.
- Define and enhance existing commercial and civic districts.
- Establish Urban Community, Rural Community, Agriculture and Preservation boundaries.
- Maintain the predominantly low-rise, low-density, single-family character of the urban fringe and rural communities.

### **Objectives of the Five-Year Review**

The purpose of the 5-year comprehensive review is to assess the appropriateness of the plan's regional vision, policies, design principles and guidelines, and implementing actions, as well as consistency with the General Plan. The findings of this assessment and any recommendations will be reported to the Planning Commission and City Council.

Community Meeting 1 – November 16, 2009
