

As required by ordinance, the review of the 1997 Ewa Development Plan which began in 2003, is coming to completion. The review covers the Plan vision, policies, and implementation methods, including the phasing of land development.

After many years of collecting comments and suggestions, conducting research, updating information and projections, and preparing preliminary drafts, a proposed draft revised Plan has been circulated for public review and comment.

Copies of the Public Review Draft Plan are available to the public, both in hard copy and CD format at the Department of Planning and Permitting, 7<sup>th</sup> Floor, 650 S. King and from this web site.
