Section II - Certification Statement

I certify that based upon development and/or review of design, specifications, and plans for construction, the design and methods of construction are in accordance with accepted standards of practice and:

1. Use of the accessory structures is restricted to parking of personal vehicles or limited storage (storage that is incidental to the permitted principal use).
2. The accessory structure is designed with an unfinished interior.
3. The accessory structure is constructed with flood resistant materials below the regulatory flood elevation.
4. The accessory structure is adequately anchored to prevent flotation, collapse, or lateral movement.
5. The accessory structure meets the requirement for openings to equalize hydrostatic flood forces acting on the exterior walls.
6. Any mechanical and utility equipment in the accessory structure is elevated to or above the regulatory flood elevation or floodproofed.
7. The accessory structure does not adversely increase flood elevations and does not adversely affect flooding on surrounding properties.
8. Within the Coastal High Hazard District, the structures and improvements would not affect the regulatory flood nor aggravate existing flood related erosion hazards.
9. Within the Floodway District, the structures and improvements would not result in increase of the regulatory flood levels.

Section III - Certification

This certification is conditioned upon the actual construction of the project being in strict accordance with the plans and specifications as stamped and signed by me.
