

MAYOR'S MESSAGE

I am pleased to present the Central Oahu Sustainable Communities Plan. It provides conceptual, long-range visions and policies to guide our land use and infrastructure decisions for the region encompassing the upland plateau between the Waianae and the Ko'olau mountain ranges, and including the communities of Waipahu, Mililani, and Wahiawa.

The Plan's vision statement and implementing policies support the sustaining of Central Oahu's unique character, lifestyle, and economic opportunities through the thoughtful master planning of communities within an Urban Community Boundary, and encouraging redevelopment and revitalization in Waipahu and Wahiawa.

This Plan represents a significant achievement in our continuing effort to streamline government processes, eliminating reviews that duplicated the zone change approval process.

The Central Oahu Sustainable Communities Plan was developed through a rigorous and successful process that provided opportunities for participation from all sectors of the community. With the adoption of this plan, our work has just begun. Implementation of the plan will continue to require, and to enable, significant participation from and within the community. It is my hope that together, we will succeed in making the Plan's long-range vision for Central Oahu a reality.

JEREMY HARRIS, Mayor
City and County of Honolulu
